

CURRICULUM VITAE - DR. OLA GRIMSHOLM

UNIVERSITY EDUCATION

10/2008 Doctoral degree on my PhD Theseis. " Neuropeptides and neurotophins in arthritis - studies on the human and mouse knee joint. Umeå University, Sweden.

CURRENT POSITION

01/2017 ongoing Starting to establish my own independent research group at University of Gothenburg. I have applied for the title "Docentur" in Feb 2019. Financed by a More2020 grant from the EU Horizon2020 programme.

COURSES AND CERTIFICATES

2019 Applied for Swedish "**Docentur**" title at the 28th of February 2019
2018 Completed course in University Pedagogics, Supervision of Master Thesis students (5 hec), University of Gothenburg.
2018 Completed course in University Pedagogics, Assessment and examination (5 hec), University of Gothenburg.
2018 Completed course in University Pedagogics, Applied analysis (5 hec), University of Gothenburg.
2016 Completed course in University Pedagogics, Subject Field Pedagogy (5 hec), University of Gothenburg.
2015 Completed course in Supervision of PhD students (5 hec), University of Gothenburg.
2004 – 2005 Completed courses in University Pedagogics (6 hec), University of Umeå.

POSTDOCTORAL FELLOWS

2018/04 - 2018/12 Dr. Chiara Farroni

SUPERVISION OF GRADUATE STUDENTS AND TECHNICIANS

01/2019- ongoing Supervisor of one Master Thesis student, Molecular Biology, Christoffer Pettersson
11/2018 - ongoing Supervisor of two Master Thesis students, Systems biology, Ahmed Mohamed and Shirin Pourakaber
09/2017 - 02/2018 Supervisor of one Master Thesis student, Manjinder Singh
04/2015 - 04/2017 Co-supervisor for PhD student Chiara Farroni (Tor Vergata University of Rome)
03-06/2016 Supervisor of two BSc students, Rehana Khan and Anna Lyytikäinen, University of Gothenburg.
05/2011 - ongoing Supervision of cell sorter technicians both at University of Gothenburg and at Ospedale Pediatrico Bambino Gesù.
09/2010 – 07/2013 Supervision of a Master Student (University of Gothenburg).
Supervision of a Medical Student (University of Gothenburg).

TEACHING EXPERIENCE

10/2018	Course leader for the PhD course: Clinical immunology with a focus on the germinal centre reaction (3hec), University of Gothenburg, Sweden
10/2017	Course leader for the PhD course: Clinical immunology with a focus on the germinal centre reaction (3hec), University of Gothenburg, Sweden
09-12/2017	Course leader for Reumatology - immunology and pathology for nurses, (7.5 hec), University of Gothenburg, Sweden.
10/2016	Course leader for the PhD course: Clinical immunology with a focus on the germinal centre reaction (3hec), University of Gothenburg, Sweden
2013, 2015	Lab course: Basic immunological and molecular biology laboratory techniques. Teaching the students flow cytometry and cell sorting, University of Gothenburg, Sweden.
2010 – 2014	Introduction of guest scientist to flow cytometry techniques.
2010 – 2011	Seminar leader in Immune Pathology course, University of Gothenburg, Sweden.

MAJOR COLLABORATIONS

Rita Carsetti, Bambino Gesu Children Hospital, Rome, Italy
Inga-Lill Mårtensson, University of Gothenburg, Gothenburg, Sweden
Isabella Quinti, La Sapienza University of Rome, Rome, Italy
Vanda Friman, Sahlgrenska University Hospital, Gothenburg, Sweden

STATEMENT ON FORMATION OF INDEPENDENT RESEARCH GROUP

Since early 2018 I am running my own independent research group at University of Gothenburg and I have managed to get enough grants to run my projects and now my first last author paper is published in *Frontiers in Immunology* (see publication list). I have had my first Post doc in my laboratory, Dr. Chiara Farroni from Rome, Italy that finished in December 2018. From November 2018 I have two Master Thesis students in my group that are doing Systems Biology, Ahmed Mohamed and Shirin Pourakaber and from January 2019 I have one Master Thesis student in Molecular Biology, Christoffer Pettersson. I have several collaboration partners in my different projects both nationally and internationally.
